

Perfect C Complex

Linus Pauling, a two time Noble Prize winner, thought that large doses of VITAMIN C were the key to controlling a number of problems that plague the modern world. We agree with his assessment and even some other modern medical doctors are using mega doses of VITAMIN C to treat cancer. We feel that our high potency VITAMIN C is a must for optimum health and wellness, especially in this unprecedented time of pollution in our food, water, and air.

Perfect C Complex is a high potency whole VITAMIN C Powder. What is whole VITAMIN C? Most VITAMIN C that is sold is only ascorbic acid. Ascorbic acid is only a portion of what is made up of natural VITAMIN C. There are a lot of different components that go into making a "whole Vitamin C" that you would find in a citrus fruit. What has been done with Perfect C Complex is that those components have been put together so that the body sees it as food and will accept it and absorb it on a molecular level. In addition to this combination, we have added Acerola Berry, which in itself is whole and 25% VITAMIN C in its own right. So, because of this special blend, our VITAMIN C equates to 4500mg per teaspoon. Incidentally, that would be equal to eating 88 oranges in one sitting.

Health Benefits of Vitamin C

1. May reduce your risk of chronic disease
2. May help manage high blood pressure
3. May lower your risk of heart disease
4. May reduce blood uric acid levels and help prevent gout attacks
5. Helps prevent iron deficiency
6. Boosts immunity
7. Protects your memory and thinking as you age

Health Benefits of Acerola Berry

1. Manages Diabetes
2. Anti-cancer Potential
3. Anti-aging Properties
4. Boosts Immunity
5. Improves Metabolism
6. Improves Heart Health
7. Aids in Digestion

What makes Perfect C Complex Different?

1. 4,500 mg per teaspoon
2. It is a Whole Vitamin C
3. Not made in China
4. Acerola Berry added
